

NUNO FELTING

Nuno Felted Silk Scarf Class

Learn the basics of this wet felting technique while creating a beautiful felted fiber embellished silk scarf. Using dyed rovings, yarn snippets and threads we will create a design on a piece of silk gauze then apply soap, water and agitation to make the applied embellishments adhere to the silk. Finished scarf will still be wet when class is done so students should bring a gallon size zip lock type bag to put scarf into after class. Students should also bring 2 beach towels.

Students should be able to stand for long periods of time and be able to tolerate using hands, fingers and upper arm strength for rolling the felt. You will take home an original silk scarf designed and made by you.

Materials Needed: Students should bring 2 beach towels with them and a gallon size zip lock plastic bag.

Materials Fee: \$20 to cover silk scarf blanks and all materials needed to complete scarf
