

# SHEARING IS DONE - NOW WHAT?

This presentation is a collaboration between SWF Fiber Innovations and Autumn Mist Fiber Mill

Both will be covering topics including:

## Fiber Preparation -

- Before Shearing and Equipment Needs

- Fleece Characteristics -

  - Show worthy vs send for processing

## Grading and sorting

## What To Send To A Mill

- What are you looking for in end product

- What are you planning to do with your yarn

- How to get the most for your fleece processing

- Equipment At The Mill

  - Overview of each piece of equipment, what it does and its importance

## Skirting Basics

- Overview of What You Need to Do

- Fleece Issues to Look For

## Fiber Loss

- Where does it go

- Why we skirt prior to shipping

## Skirting Demo

## Questions and Answers
